

ELECTRIC PROPULSION SYSTEMS FOR BOATS

CATALOG

**E'DYN WAS CREATED WITH ONE THING IN MIND
– THE CUSTOMER.**

A SHORT

story

about e'dyn

RESEARCH PROJECT EVOLVED
INTO A RANGE OF SERIAL PRODUCTS

The luxury of being able to move almost silently is the most beautiful experience of navigating with an electrically powered boat. Whole chapters in the literature for the shipbuilding industry are devoted to noise reduction in the powertrain. The electric system with this uniform rotation has a low noise and vibration level.

STARTED AS
A RESEARCH
PROJECT

E'DYN WAS CREATED WITH ONE THING IN MIND – THE CUSTOMER.

Therefore, all products are produced and assembled in accordance with the latest innovations, technology improvements and your requirements. Caring for customers doesn't end with the creation of strong, customized and well-designed motors, but also includes care for the environment, allowing you to enjoy everything their products have to offer. Products are created with and for you, therefore electric motors are customized to make a splash, while keeping the waters you wish to explore clean.

Small outdoor electric motors for every day

E'DYN
Free time

EXTREME
LIGHTNESS

Simple. Easy. Economical.

The new Simplicity series are extremely light motors with power from 2.8 to 6.5 kW. The lightness of the engine makes it easy to carry. No spilled gasoline in your car trunk and no dirty hands.

E'DYN WAS CREATED WITH
ONE THING IN MIND
- THE CUSTOMER.

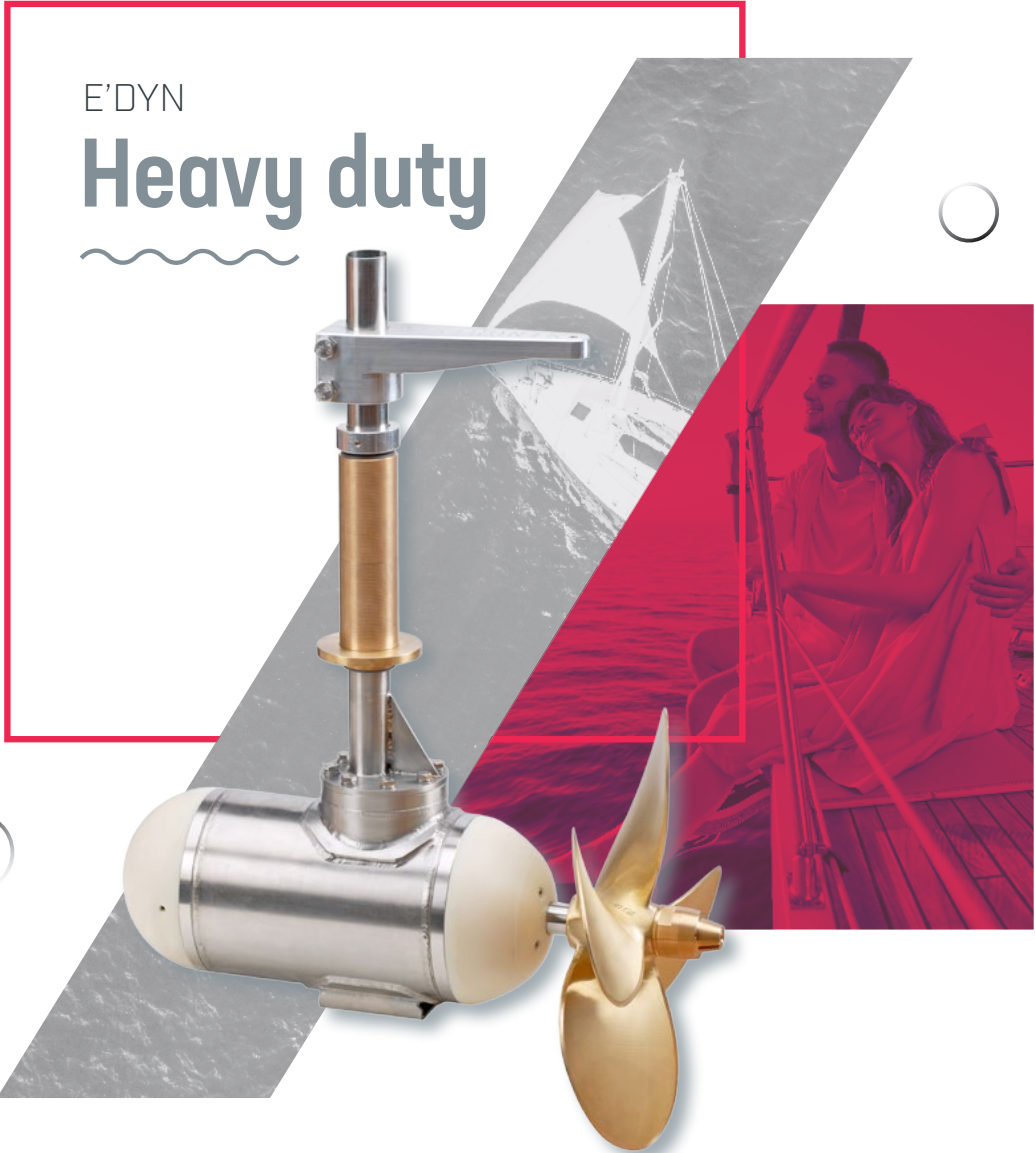

We adapted the batteries to the Simplicity series. With their minimum weight and 2.5 kWh of power, they ensure easy transport and long operating autonomy. You can choose between steering wheel or steering lever. The choice is entirely yours.

Electric motors for sailboats

E'DYN
Heavy duty

COMPLETELY
GREEN AND ECO

Simple. Powerful. Easy.

The Sail series engines are designed for sailors who enjoy the silence and fluttering of the flag in the wind. Their movement is ecological and inaudible, as if driven solely by the wind. The Sail series is available from 1.6 kW to 10 kW in the Submersible version.

E'DYN WAS CREATED WITH
ONE THING IN MIND
- THE CUSTOMER.

FEEL
THE WIND

We adapted the batteries to the Sail series. They provide long operating autonomy with their minimal weight and high power.

Large outboard motors for demanding users

E'DYN
Heavy duty

HIGH PERFORMANCE
QUALITY

Optimal. Durable. Economical.

Top notch outboard motors with a power up to 25kW enable immense pleasures of silence in slow driving or in achieving speed records. Fixed motor mounting makes it easy to use. You can choose between steering wheel or steering lever. It's up to you.

E'DYN WAS CREATED WITH

Internal motors for demanding users

E'DYN
Heavy duty

EXTRAORDINARY
POWER AND DYNAMICS

Lively. Strong. Surprising.

The Power motor range represents internal motors with power from 10kW to 150kW. We can also make a motor up to 1700kW to order. We adapted the batteries to the Power series. They provide long operating autonomy with their minimal weight and high power.

E'DYN ADDITIONAL EQUIPMENT

E'DYN VISION

The future drive technology belongs to the electric motor.

GREEN TRAVEL EXPERIENCE

Advanced. Responsible. Surprised.

Our offer includes LiON batteries with a built-in BMS system which this ensures control and trouble-free operation. It prolongs battery life. Optimal packaging and interconnectivity of battery packs ensure a great distribution of batteries in your boat, including volume and weight.

CHOOSE extra

E'DYN ADDITIONAL EQUIPMENT

Displays

We adjusted the screen layout. Let just be amazed by the magical colors and crystal purity of e'dyn color systems. On the screen you can check the power consumption, battery status, speed and location. Round screens are available in 3, 5, 7 or 9 inch sizes.

* Available in 2021/2022

E'DYN ADDITIONAL EQUIPMENT

Handle

The new lever allows you to mount it on all e'dyn systems. It can be left or right, with two motors or on a flat surface. We thought of everything. Its advantage is additional protection with a magnetic key.

* Available in 2021/2022

Speed handle / Triller

We enabled all outboard engines to use a classic handlebar for a comfortable ride.

* Available in 2021/2022

COMFORTABLE DYNAMICS

Solar cells

Solar energy takes care of recharging the batteries of your charger. In this way, we ensure an independent supply from electrical connections and support green energy. The financial savings are not negligible either.

* Available in 2021/2022

Aggregates

We are aware that in certain conditions, we can ensure the highest level of safety only with an additional unit. Keep electricity available even when all other options fail.

* Available in 2021/2022

E'DYN ADDITIONAL EQUIPMENT

Handy Pro App

You can easily control all our engines via the phone app.

* Available in 2021/2022

Motor bag

Small Free Time portable engines come with a portable bag that protects both the engine and your vehicle from damage and water residue.

* Available in 2021/2022

Phone holder

There is not always enough room to store your phone on boats. We have prepared two top phone holders, also with the addition of a wireless charging function.

* Available in 2021/2022

Charging station

Because we strive for complete solutions, we also offer a range of charging stations.

* Available in 2021/2022

Lesarska cesta 10 / SI-3331 Nazarje / Slovenia
